

Background

- Real Estate

Jack Burkholder

Jack has more than 30 years of experience in international investment banking, corporate finance and real estate development. He brings to BBK his global experience and expertise in real estate—including vacant land, offices, hotels, restaurants, apartments, condominiums, retail centers, industrial and mixed-use facilities.

Professional Experience

Jack was previously the Managing Director of Burkholder & Associates, L.L.C., in Denver. The firm's specializations included project development, asset acquisition, sales and management, economic feasibility analysis, strategic planning and implementation, capital budgeting, land use and zoning, infrastructure development, building construction, and hospitality and restaurant industry expert witness testimony and litigation support.

Throughout his career, Jack has also held positions of Manager of Parkhill Development Company/SeNa Properties, L.L.C. in Denver; Vice President Investment Banking of Schroder Banking Group in New York; and Senior Portfolio Manager, Private Placements of Equitable Life Assurance Society in New York.

Among his career accomplishments, Jack has been a consultant to a U.S. company developing premier residential condominium hotel on the Pacific Ocean in Jaco, Costa Rica; an asset manager for more than \$3 billion of institutional real estate portfolios; and appointed president of an eight-store Mexican-style restaurant chain in Denver to oversee reorganization under Chapter 11 Bankruptcy Laws.

He has successfully underwrote and closed over \$800 million of institutional private placement loans and investments; owned exclusive Nevada Area Director Franchise Rights to Quiznos Subs, developed business plan for 160 stores, and sold franchise rights; redeveloped and opened two Art Deco Hotels and restaurants in South Miami Beach; and was instrumental in initiating and bringing about a joint venture between the world's largest offshore drilling company and a major European container shipping company to finance, construct and operate the world's third dynamic positioning drillship.
